

Dear Representatives,

We the listeners, readers and viewers of News, Political Opinions and "The Truth", appeal to you this fact. We want to hear all opinions and we want to make our own decisions on how much is true and how much of the news is slanted towards the corporate world which again is trying to shield us from the alternate view of the "Facts".

Do not think of party lines ,as this should be a vote of your conscience, and not one directed by the media which probably gave you your seat. We are closely watching your voting, and as a Voting citizen, I will do my best to see that the truth is known to all citizens about how you feel about a monopoly of all news in this Americanization of "Democracy"

Think about your vote and the people who put their "freedom of Choice" in your hands, for we deserve the truth.

Sincerely , Bill Boesewetter
